MISSISSIPPI STATE DEPARTMENT OF HEALTH

2020 CERTIFICATION

Consumer Confidence Report (CCR)

Town of Pelahatchie

Public Water System Name

MS 610018

List PWS ID #s for all Community Water Systems included in this CCR

The Federal Safe Drinking Water Act (SDWA) requires each Community Public Water System (PWS) to develop and distribute a Consumer Confidence Report (CCR) to its customers each year. Depending on the population served by the PWS, this CCR must be mailed or delivered to the customers, published in a newspaper of local circulation, or provided to the customers upon request. Make sure you follow the proper procedures when distributing the CCR.

CCR DISTRIBUTION (Check all boxes that apply.)

INDIRECT DELIVERY METHODS (Attach copy of publication, water bill or other)	DATE ISSUED
<input checked="" type="checkbox"/> Advertisement in local paper (Attach copy of advertisement)	6/30/21
<input type="checkbox"/> On water bills (Attach copy of bill)	
<input type="checkbox"/> Email message (Email the message to the address below)	
<input type="checkbox"/> Other _____	
DIRECT DELIVERY METHOD (Attach copy of publication, water bill or other)	DATE ISSUED
<input type="checkbox"/> Distributed via U. S. Postal Mail	
<input type="checkbox"/> Distributed via E-Mail as a URL (Provide Direct URL): _____	
<input type="checkbox"/> Distributed via E-Mail as an attachment	
<input type="checkbox"/> Distributed via E-Mail as text within the body of email message	
<input type="checkbox"/> Published in local newspaper (attach copy of published CCR or proof of publication)	
<input type="checkbox"/> Posted in public places (attach list of locations)	
<input type="checkbox"/> Posted online at the following address (Provide Direct URL): _____	

CERTIFICATION

I hereby certify that the CCR has been distributed to the customers of this public water system in the form and manner identified above and that I used distribution methods allowed by the SDWA. I further certify that the information included in this CCR is true and correct and is consistent with the water quality monitoring data provided to the PWS officials by the MSDH, Bureau of Public Water Supply.

CCR DEADLINE TO MSDH & CUSTOMERS: BY JULY 1, 2021

2020 Annual Drinking Water Quality Report
Town of Pelahatchie
PWS#: 0610018
June 2021

We're pleased to present to you this year's Annual Quality Water Report. This report is designed to inform you about the quality water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the quality of your water.

If you have any questions about this report or concerning your water utility, please contact Barbara Harper at 601.854.5224. We want our valued customers to be informed about their water utility. If you want to learn more, please attend any of our regularly scheduled meetings. They are held on the first Monday of each month at 7:00 PM at the Town Hall.

Our water source is from three wells drawing from the Sparta Aquifer. The source water assessment has been completed for our public water system to determine the overall susceptibility of its drinking water supply to identified potential sources of contamination. A report containing detailed information on how the susceptibility determinations were made has been furnished to our public water system and is available for viewing upon request. The wells for the Town of Pelahatchie have received a moderate susceptibility ranking to contamination.

We routinely monitor for contaminants in your drinking water according to Federal and State laws. This table below lists all of the drinking water contaminants that we detected during the period of January 1st to December 31st, 2020. In cases where monitoring wasn't required in 2020, the table reflects the most recent results. As water travels over the surface of land or underground, it dissolves naturally occurring minerals and, in some cases, radioactive materials and can pick up substances or contaminants from the presence of animals or from human activity; microbial contaminants, such as viruses and bacteria, that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife; inorganic contaminants, such as salts and metals; which can be naturally occurring or result from urban storm-water runoff, industrial, or domestic wastewater discharges, oil and gas production, mining, or farming; pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm-water runoff, and residential uses; organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations and septic systems; radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities. In order to ensure that tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. All drinking water, including bottled drinking water, may be reasonably expected to contain at least small amounts of some contaminants. It's important to remember that the presence of these contaminants does not necessarily indicate that the water poses a health risk.

In this table you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms we've provided the following definitions:

Action Level - the concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Maximum Contaminant Level (MCL) - The "Maximum Allowed" (MCL) is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal (MCLG) - The "Goal" (MCLG) is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Parts per million (ppm) or Milligrams per liter (mg/l) - one part per million corresponds to one minute in two years or a single penny in \$10,000.

Parts per billion (ppb) or Micrograms per liter - one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.

TEST RESULTS								
Contaminant	Violation Y/N	Date Collected	Level Detected	Range of Detects or # of Samples Exceeding MCL/ACL	Unit Measure -ment	MCLG	MCL	Likely Source of Contamination
Inorganic Contaminants								
10. Barium	N	2020	.0014	No Range	ppm	2	2	Discharge of drilling wastes; discharge from metal refineries; erosion of natural deposits
13. Chromium	N	2020	3.3	No Range	ppb	100	100	Discharge from steel and pulp mills; erosion of natural deposits
14. Copper	N	2018/20	.3	0	ppm	1.3	AL=1.3	Corrosion of household plumbing systems; erosion of natural deposits; leaching from wood preservatives
18. Fluoride	N	2020	.166	No Range	ppm	4	4	Erosion of natural deposits; water additive which promotes strong teeth; discharge from fertilizer and aluminum factories

17. Lead	N	2018/20	2	0	ppb	0	AL=15	Corrosion of household plumbing systems, erosion of natural deposits
Sodium	N	2019*	88000	87000 - 88000	ppb	0	0	Road Salt, Water Treatment Chemicals, Water Softeners and Sewage Effluents.
Disinfection By-Products								
81. HAA5	N	2014*	8	No Range	ppb	0	60	By-Product of drinking water disinfection.
82. TTHM [Total trihalomethanes]	N	2019	32.7	No Range	ppb	0	80	By-product of drinking water chlorination.
Chlorine	N	2020	1.8	1.2- 2.45	mg/l	0	MDRL = 4	Water additive used to control microbes

* Most recent sample. No sample required for 2020. ** Fluoride level is routinely adjusted to the MS State Dept of Health's recommended level of 0.6 - 1.2 mg/l.

As you can see by the table, our system had no violations. We're proud that your drinking water meets or exceeds all Federal and State requirements. We have learned through our monitoring and testing that some contaminants have been detected however the EPA has determined that your water IS SAFE at these levels.

We are required to monitor your drinking water for specific contaminants on a monthly basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. In an effort to ensure systems complete all monitoring requirements, MSDH now notifies systems of any missing samples prior to the end of the compliance period.

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Our water system is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>. The Mississippi State Department of Health Public Health Laboratory offers lead testing. Please contact 601.576.7582 if you wish to have your water tested.

To comply with the "Regulation Governing Fluoridation of Community Water Supplies", our system is required to report certain results pertaining to fluoridation of our water system. The number of months in the previous calendar year in which average fluoride sample results were within the optimal range of 0.6-1.2 ppm was 8. The percentage of fluoride samples collected in the previous calendar year that was within the optimal range of 0.6-1.2 ppm was 50%.

All sources of drinking water are subject to potential contamination by substances that are naturally occurring or man made. These substances can be microbes, inorganic or organic chemicals and radioactive substances. All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1.800.426.4791.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline 1.800.426.4791.

The Town of Pelahatchie works around the clock to provide top quality water to every tap. We ask that all our customers help us protect our water sources, which are the heart of our community, our way of life and our children's future.

TeenVoice

Send your questions and answers to: dean@richlandnews.com or mail to: Ann Farmer, 104 Shipp Lane, Florence, MS. Please include your age, school name or grade. NO PERSONAL NAMES WILL BE USED.

QUESTION: My girlfriend invited me over to eat with her parents. The whole time her father asked me embarrassing questions and practically insulted me several times. She just kept eating with her face down and would not even look at me. Her mother did the same thing. There was a lot of silence around the table and I did not even enjoy my food. Now I am wondering if I really want a relationship with this girl if I have to put up with her father. What do you think?

ANSWER: Good question. Answer - do you love her more than you hate him? 154

QUESTION: My sister got all kinds of awards at school this year and I got one kind while most people got so it was not that special. It would not have upset me except my parents put it all on Facebook and kept talking about it and bragging to me. Do you think parents should compare their kids? I cannot help it that I am not a brain like her.

ANSWER: Everything my sister does is better than I. She is smarter. She is prettier. She is more popular. My parents think she is like a queen or something and I do not come close to her. It hurts.

QUESTION: My mom wants me to go to a gym to get in better shape. I have a boyfriend and I have sex. I do not want to go because that is just embarrassing to me. She said I have to go to have to break up with him. She is so stupid. My boyfriend takes care of birth control. Do any of you go to that kind of doctor?

ANSWER: I have going, but my mom gets with me and that makes it a little better. Go because you do not want to get pregnant.

QUESTION: I am not fun and I have a lot of guys. I am not fun and I have a lot of guys. I am not fun and I have a lot of guys. I am not fun and I have a lot of guys.

QUESTION: My friend like to drink and I do not. Now they are planning a party and I know there will be drinking. I want to go but not if they are going to be trying to force me to drink when I do not want to. If I stay home they will know why and if I go they will make fun of me. What do I do and why do they do this to me? It hurts me.

ANSWER: Go if you will have fun and do not drink. You are setting an example and I am proud of you. I do not drink and I understand how hard it is to not give in to them. If you will not have fun then stay home and let them think what they want. You are doing the right thing and they are wrong for trying to make you fit what they want. Those are not real friends.

QUESTION: I would like to ask if anybody has ever had someone who likes them but you do not like them back in the same way but you do not want to hurt their feelings. What do you do? This girl has been a friend since we were little kids and I thought that was OK. It is but my friend said it is just friendship and I am just blind to it. I do not want to hurt her but I do not think of her like she seems to think about me.

ANSWER: Just keep your friends like always and she will let you know if she feels more than friendship. Your friend could be wrong and then you could really mess up your friendship if you say something stupid.

QUESTION: How do you keep your relationship going during the summer if you are dating someone and neither one of you can drive yet.

ANSWER: We keep in touch and when we can we go together. We go to the same church as that is where we usually see each other during the summer.

QUESTION: My parents let me come over to watch a movie or something and I do not come close to her. It hurts.

ANSWER: No, you cannot help it that you are not just like because you are supposed to be just like somebody else even your sister. Talk to your parents.

QUESTION: I have going, but my mom gets with me and that makes it a little better. Go because you do not want to get pregnant.

ROTARY OF FLOWOOD SCHOLARSHIP PRESENTATIONS - Pictured are Rosetta Hines and Jon Lee. The Rotary Club of Flowood presented their annual Rosetta Cogswell scholarship to Rosetta Hines, a graduating senior from Hartfield Academy, and Jon Lee, a graduating senior from Northwest Rankin High School. Both winners were active members of Rotary Interact clubs at their schools and are pictured with Jon Lee, Interact club president of the Flowood Rotary. The scholarships, valued at \$1,000, were awarded upon winning an essay competition based on their community service in high school. Delacruz will begin her freshman year at the University of Tennessee this fall, while Mosier is headed to Mississippi State University.

slavery or something.

ANSWER: Is that when the slaves were set free and could go where they wanted? Richland

There are three new questions for this week:

1 - I met a guy when we were in my grandpa's house and I liked him. He was a boy about the same age as me. I told him I liked him and he said that one time let it go. I feel guilty and then I think if I tell him he might break up with me. I hate myself.

2 - My parents would not let me help with bible school as church and then they would not let me go on a trip with the youth of my church. They say the virus is not gone. Are your parents still being mean to you and not letting you go places?

3 - My sister likes to wear dresses and makeup and I do not. I like what I wear but my mom says I look like a boy most of the time. I hate dresses and makeup and I am not a lesbian. I just do not like all that girly stuff. Who has this problem? She is driving me crazy.

Richland News

To submit Richland area news, please send to: news@richlandnews.com or include a phone number in case I have a question. Email or mail your item at least 2 weeks before the event in advance. It can meet deadline. DEADLINE for this column is 11:00 PM FRIDAY BEFORE THE next edition. PHOTOGRAPHS ARE NOT ACCEPTED AND WILL NOT BE RETURNED. Please email to: news@richlandnews.com or call 405-453-0000. If you have a photograph, I DO NOT OPEN ATTACHMENTS! Any email with an attachment is deleted without being opened. All news items can be emailed to: news@richlandnews.com or mailed to: Ann Farmer, 104 Shipp Lane, Florence, MS 39203.

RICHLAND LIBRARY NEWS
The Richland Book Club will also meet on Tuesday, July 20th at 11:00 am. July's book selection is *Fair Warning* by Michael Connelly. Refreshments will not be provided at either meeting, but you may bring a snack for yourself.
In house Story Time is back on Mondays at 11AM. Themes include:
July 5 - LIBRARY IS CLOSED
July 12 - Zoo Animals
July 19 - Puppies Dogs
July 26 - Mother Goose
Are you ready for the summer? Many exciting things are happening at the Central Mississippi Regional Library System! Earlier in the year, the CMRLS Board of Trustees voted to approve for the annual summer library program.

2020 Annual Comprehensive Report
To the Board of Trustees
JUNE 2021

It is my pleasure to present to you this year's Annual Comprehensive Report. This report is designed to provide to you a clear and concise summary of the work of the Board of Trustees and the work of the County of Richland. The report is divided into four main sections: the work of the Board of Trustees, the work of the County of Richland, the work of the County of Richland, and the work of the County of Richland.

The Board of Trustees is the governing body of the County of Richland. It is responsible for the overall management and direction of the County. The Board of Trustees is composed of seven members, each representing a different district of the County. The Board of Trustees meets regularly to discuss and decide on the County's business.

The County of Richland is the largest and most populous county in the state of Mississippi. It is home to over 200,000 people and covers an area of over 1,000 square miles. The County is responsible for a wide range of services, including law enforcement, fire protection, public health, and social services.

The County of Richland is a diverse and vibrant community. It is home to a wide variety of people from different backgrounds and cultures. The County is committed to providing a high quality of life for all of its residents.

The County of Richland is a leader in innovation and technology. It is home to a number of high-tech companies and research centers. The County is committed to supporting the growth and development of the County's economy.

The County of Richland is a beautiful and scenic area. It is home to a number of state parks and recreational areas. The County is committed to preserving the natural beauty of the County and providing opportunities for outdoor recreation.

The County of Richland is a proud member of the Gulf South Conference. It is committed to supporting the growth and development of the County's economy.

The County of Richland is a proud member of the Gulf South Conference. It is committed to supporting the growth and development of the County's economy.
